# Collaborative works for cyber security of “comics”

Comic has been serialized in a twitter for three years.

Season 1-2020

Season 2-2021

Season 1-2022

This event is to produce comics on the theme of "cybersecurity" and widely disseminate them on Twitter.

The theme of the story will be decided by voting from the public as "What we want to convey in cybersecurity". We will create a story based on eight themes that we have decided, and post comics written by professional artists on Twitter.

(This is Japanese only, sorry)
